Moot Proposition

IN THE HON'BLE SUPREME COURT OF INDICA CRIMINAL WRIT JURISDICTION

Under Article 32 of the Constitution of Indica

IN THE MATTER OF:

NGOs and Activists Coalition

v/s.

State of Best Pradesh & Ors.

A Petition for Writ of Mandamus and Other Reliefs Pertaining to the Alleged Negligence, Malpractice, and Criminal Activities at Save Life Hospital

Save Life Hospital, a reputed healthcare institution in the state of Best Pradesh, Indica, has been at the center of controversy following the death of Dr. Ananya Mehta, a renowned physician and head of its Critical Care Unit. On 12.10.2024, her body was discovered in a restricted-access seminar room at 3:00 a.m., with multiple bruises and scars indicative of a violent altercation. Despite these findings, the state police quickly concluded it was a case of suicide, citing stress and work-related pressures as contributing factors.

Dr. Mehta, a pioneer in emergency medicine, was working on a confidential research project commissioned by the state government. The project aimed to develop cost-effective emergency healthcare protocols, potentially disrupting powerful private healthcare entities with vested interests. Days before her death, Dr. Mehta confided in her colleagues about receiving anonymous threats warning her to abandon her research. Despite her repeated requests for enhanced security and relief from night shifts, the hospital management insisted on her presence during late-night hours, citing "operational priorities."

The post-mortem report was inconclusive, stating asphyxiation as the cause of death but failing to determine whether it was due to suicide or homicide. Autopsy records were allegedly tampered with, and conflicting accounts emerged regarding the time of death. Adding to the mystery, the seminar room's CCTV footage for the night of the incident was "accidentally" erased, and several access logs to the restricted area are missing.

Two days after Dr. Mehta's death, an organized mob, armed and hooded, stormed Save Life Hospital. They vandalized the seminar room and allegedly looted sensitive files related to ongoing medical research and patient

records. Whistleblowers have since come forward, alleging that the hospital was involved in a sophisticated organ trafficking racket, with Dr. Mehta's research potentially exposing these activities. Anonymous sources claim that the hospital has ties to an international cartel operating across borders, selling harvested organs to wealthy clients in the neighboring country of Berga.

Further investigation has revealed financial irregularities in the hospital's accounts, with significant sums transferred to offshore entities. It is suspected that key figures in the hospital's management, including Dean Dr. Ashok Patra, may be complicit in these illegal activities. Dr. Patra, however, has denied all allegations and attributed Dr. Mehta's death to personal issues unrelated to hospital operations.

The state government's response has been widely criticized for its inaction and alleged complicity. Police officials tasked with the initial investigation were reportedly seen leaving the hospital with confidential files. Public outrage has intensified following leaked reports that the state's Health Minister had received campaign donations from entities linked to Save Life Hospital.

A coalition of NGOs and activists has filed a petition in the Supreme Court of Indica, alleging gross negligence, corruption, and malpractice by the state authorities. They seek the following reliefs:

1. The constitution of a Special Investigation Team (SIT) or transfer of the investigation to the Central Bureau of Investigation (CBI).
2. A forensic audit of Save Life Hospital's financial transactions to uncover links to organ trafficking networks.
3. Guidelines for the protection of whistleblowers and healthcare workers.
4. Compensation for Dr. Mehta's family and prosecution of those responsible for her death.

The case has ignited a nationwide debate on the ethical and legal responsibilities of healthcare institutions, the role of government oversight, and the rights of healthcare professionals in high-pressure environments.

NOTE:

- This moot proposition is entirely fictional and crafted for academic purposes.
- The laws of Indica are *pari materia* to those of the Republic of India.
- A maximum of four issues may be framed for arguments

Did you know ?

The concept of **Moot Courts** dates back to the 18th century when law students in England practiced their legal arguments in simulated courtrooms. The word "**moot**" originally referred to debates or discussions among learned groups. Today, Moot Court Competitions are a cornerstone of legal education worldwide, honing skills like critical thinking, research and oral advocacy. These competitions not only prepare students for real-world legal challenges but also instill confidence and professionalism essential for their careers.

CPJ Debate Competition

March 21, 2025

Debaters have been proven to become leaders and successful professionals. Countless corporate executives, influential lawyers, wealthy entrepreneurs and elected officials credit their debate experience in college with making them successful. The anecdotal evidence is overwhelming and suggests some of the following benefits.

Debaters become better critical thinkers and communicators. People begin to see them in a different way. Debaters improve their social interactions. Debaters are not argumentative with their family and friends, but oddly enough, more understanding.

Debaters improve their personal expression. There seems to be something in us as human being which wants to express ourselves. Their voices are heard.

Debaters are more often seen as leaders. Studies in America show that those who communicate often & well and give a balance of positive and negative comments, are seen as leaders. Leadership is given, not taken. Debaters are more likely to be given leadership.

Debaters tend to become citizens in the real sense of the world - informed, active, participating, a force to be harnessed for the betterment of all.

CPJ Judgment Writing Competition

March 22, 2025

A Judgment is the statement given by the Judge, on the grounds of a decree or order. It is the end product of the proceedings in the Court. The writing of a judgment is one of the most important and time consuming task performed by a Judge. The making and the writing of a judgment and the style in which it is written, varies from Judge to Judge and reflects the characteristic of a Judge. Every Judge, of every rank, has his own distinct style of writing.

A Judgment pronounced on the bench, regarded as an intellectual product, stands in a class by itself. The judge speaks with authority and what he says should, therefore, be spoken with befitting dignity. He should not affect grandiloquence but he should be impressive. The strength of a judgment lies in its reasoning and it should therefore, be convincing. Clarity of exposition is always essential. Dignity, convincingness and clarity are exacting requirements but they are subservient to what, after all, is the main object of a judgment, which is not only to do but to seem to do justice. CPJ Client Counseling Competition

March 22, 2025

The Competition simulates a law office consultation in which two law students, acting as lawyers (attorneys/solicitors/legal practitioners) are presented with a client matter. The students conduct an interview with a person playing the role of the client. Students are expected to elicit the relevant information from the client, explore with the client his or her preferred outcome, outline the nature of the problem and present the client with a means (or range of alternatives, if appropriate) for resolving the problem. The interview with the client is then followed by a post-consultation period during which the students, in the absence of the client, analyze the interview and discuss the legal and other work to be undertaken.

The interview and post-consultation period last a total of 25 minutes. The students are evaluated by a panel of judges, usually composed of two lawyers and a counselor (e.g., social or welfare worker, psychologist or another person with extensive experience in counseling). The inclusion of a non-lawyer counselor on the judging panel is designed to broaden the interdisciplinary perspectives of the panel, both in terms of skills and possible solutions to a problem. The students are evaluated against specific criteria that emphasize the use of listening, questioning, planning and analytical skills in a lawyer/client interview. Once the judges have completed their evaluation of the interview, the students are called back in and the judges provide a brief critique of the team's handling of the consultation and post-consultation periods.

Rules For CPJ Client Counseling Competition

- Each Law School/ College may enter this competition with a maximum of ONE team. Each team shall consist of two students.
- Students pursuing Law (3 year or 5 year) courses are only permitted to participate in the competition. **Students pursuing Post-graduate courses in law are not permitted to participate in this competition.**
- All the problems will be based on the Theme **“Human Rights Today: Emerging Concerns & Global Trends”**
- There will be **two competition rounds**. First will be prelims and the second one shall be final round. Each team will get one opportunity to represent them in the competition. Each team will get a total of **25 minutes**. Those 25 minutes are to be divided in two parts, as follows:
 - First **20 minutes** is termed as *“Client Consultation Period”*. The participants are expected to extract the relevant information, make an outline of the problem and make legal suggestions for its resolution.

- Next **5 minutes** is termed as “*Post Interview Period*”. The participants shall discuss the interview with the judges. The participants are to use this time to assess the interview and discuss future strategies for dealing with the client's problems with the Judges.
- It is on the discretion of the teams to decide, “How will they share the work?” **The work plan is subject to judging.** However, the teams may use a part of this post interview period to explain their work plan. The judges may question the teams during this period.
- In order to preserve anonymity, each team will be identified by an **Alpha-numeric code**, which will be provided to each team during registration process. **Disclosing the name of the participating college to the judges will result in a 5 mark penalty.**
- **Scouting is prohibited** and will result in a **5 mark penalty.**
- Each group will be judged by a panel of one or two judges. Each panel of judges may be from among the following categories: Practising Lawyers, Academicians, Judges, Counsellors and Psychologists.
- The Judges and the teams shall agree beforehand to the commencing time of the interview.
- The **participating teams shall never indulge in any form of conversation with any other client**, except the one provided to them during the round. Such a conversation will be considered as misconduct and the teams so interacting shall be **disqualified.**
- **If a tie persists, the team scoring the higher marks as according to the Point 5 of Judging Standard, will be entitled to the title of the winner. If a tie still persists, the marks of the tied teams will be compared with respect to the following Points in the Judging Standards, until either of the team come out as a clear winner:**
 - Point 4, if still a tie, then
 - Point 3, if still a tie, then
 - Point 7, if still a tie, then

Post Consultation Session with the Judges

Format

- Each team shall consist of two student participants and would be allotted a room for the interview and counseling. Here, the two student participants will present themselves as advocates in a lawyer's chamber. The client will be a person trained by the organizers and the advocates will counsel the clients regarding the given problem. The two participants are required to elicit all relevant information from the client by interviewing or questioning the client and then counsel the client.
- All teams will be given their team codes (as, T1, T2, T3 etc.) by the organizers to their respective e-mail Ids.
- The Competition consists of two rounds.
- The highest scoring team among all the teams will be titled as the **Winner.**

The Consultation Period (Interview Period)

All teams will go through a 25 minutes session. The first 20 minutes are devoted for consultation with the client during which lawyers are expected to elicit the relevant information, outline the problem and propose a solution or other means of resolving the problem (Further information is contained in the Judging Standards for the Client Counseling Competition). During the consultation and post-consultation, the team may use books, notes and other materials. The team may also use office props (dictaphones, files, desktop, furnishings, bookshelves etc.) and any other material to furnish their consultation room.

Post Consultation Period (Post Interview Period)

- During the post-consultation period, the students may either talk to each other loudly enough to be overheard by the judges, or dictate a file memorandum on the interview, or both. The concept behind the post-consultation period is to summarize the interview, indicate the scope of the legal work to be undertaken and state the legal

issues that should be researched. Explanation of the position or attitude taken by the students may be useful. Judges may question the teams during the post consultation period.

- If the students feel that some documents are appropriate, like a letter to the client confirming their retention as attorneys, the fee arrangement etc, or a letter to opposing counsel or to the party with whom the client is having their legal problems, they may dictate such a document at the post consultation stage.
- The Judges may penalize students who allow the interview session to run excessively beyond the 20 minute period allotted in the rules. However, the judges in their discretion, taking into account the circumstances, may allow some more time beyond the 20 minute period for the interview session. If the extended consultation session allowed an opportunity for a team to gather more information than other teams, this circumstance should be taken into consideration by the judges in making their decision. Judges should stop students after 25 minutes regardless of whether the students are in the consultation or post-consultation process.

Judging Standards

- **Establishing the working atmosphere:** The lawyers established the beginning of an effective professional relationship and working atmosphere and at an appropriate point oriented the client to the special nature of the relationship (confidentiality, duration and plan of interview, methods of contact, explanation of fee and responding to client's concerns, mutual obligations and rights, after hours availability, complaints procedure etc.) in a courteous, sensitive and professional manner.
- **Listening to the problem:** The lawyers learnt how the client viewed his or her situation, using a combination of listening and questioning, drawing out both information and feelings, as appropriate, to develop a reasonably complete and reliable description of the problem and reflecting this understanding to the client. In this regard, relevant information voluntarily said by the client could be elicited by asking relevant specific questions.
- **Identification of client's goals, expectations and requirements:** The lawyers learned the client's goals and initial expectations and modified or developed them as necessary, giving attention in doing so to all aspects of the problem, including the emotional ones.
- **Problems Analysis:** The lawyers analyzed the client's problem with creativity and from both legal and non-legal perspectives, resulting in a clear and useful formulation of the problem by asking relevant specific questions.
- **Legal analysis, Alternative Courses of Action and the Giving of Advice:** Legal analysis and the consequent legal advice given should be both accurate and appropriate to the situation and is consistent with the analysis of the client's problem develop a set of potential and feasible alternatives, if any, both legal and non-legal.
- **Effective Conclusion:** The lawyers concluded the interview skillfully and left the client with a feeling of reasonable confidence and understanding, with appropriate reassurance and with a clear sense of specific expectations and mutual obligations to follow.
- **Team Work:** The lawyers as collaborating counsellors, worked together as a team, with flexibility and an appropriate balance of participation.
- **Continued an ethical and professional relationship throughout the interview:** The lawyers recognized, clarified and responded to any moral or ethical issues which may have arisen, without being prejudicial in judgments. The lawyers developed an appropriate balance in dealing with the legal and emotional needs of the client.
- **Debriefing (Post interview Reflection):** The lawyers, during the post consultation time, gave evidence of having recognized their own and the client's feelings; the strengths and limitations of their interviewing skills; their handling of the substantive aspects of the client's problems (both legal and non-legal), the quality and appropriateness of their advice and provided for an effective follow-up. Judges should expect to see evidence of students learning through making this Reflection on the experience of the interview.
